Blooming

Modes & Installation

Bloo Bloobs has two supported operating modes:

Up, in which the wheel is nearest to the bottom; and **Down**, in which the wheel is nearest the top.

For initial installation, firmly place Bloob chassis in

Up mode on any of the following surfaces:

- Desktop: on any continuously flat surface.
- Monitor-top: flat-top, only.
- Cube-top: between cubes, not on outer walls.

After installation, allow defaults to reassert. This may take up to four (4) minutes, depending on temperature and settling during shipping.

Up Mode

1. Place in Up Mode (blue end on surface).
2. Watch as Bloobs fall through the chambers.
3. Continue to Down Mode, if desired.

Bloo Bloobs®
Spoonright 2003

Bloo Bloobs is a misunderstood trademark of Bloo Deskware, Inc.

Call Tech Support at 800-555-5555 for our amusement.

Warranty

Bloo Bloobs deskware is warranted to the original purchaser against manufacturing defects for one year from the purchase date under normal use.

This warranty is void if the product is thrown, squashed, batted, volleyed, left in a car in Orlando for longer than three minutes, or otherwise used in a manner inconsistent with product labeling.

2

About Deskware

Bloo Deskware has been in business pretty much since people got desks. Back in umpteen-aught-2, Babble Bloo began producing his first product, the Blooble, out of his workshop. The Blooble, the prototype of desk knickknacks, started a craze, and Bloobles were next to every coffee cup.

From those humble beginnings, Bloo Deskware was born. With products ranging from Mouse Pockets to Clippie Clingers, the Bloo team continues to surpass all other desk engineering firms.

Don't be blue; get Bloo!™

Features

- Six (6)-bladed spinning wheel
- Two supported operation modes*
- Frothy air spouts and sleek oil bubbles

* Unsupported configurations void the Bloo warranty.

4

Down Mode

1. Flip chassis 180° and place in Down Mode.
2. Watch as Bloobs fall through the chambers.
3. Return to Up Mode, if desired.

Warning: Operating in an unsupported configuration (e.g., on floor, in microwave) may cause product failure or user injury.

Troubleshooting

1. Blue liquid is leaking all over my desk!

Use paper towels to soak up liquid. Call Bloo for tech support (see page 2). * If warranty is out of date or voided, place in water-tight disposal unit.

2. Blue liquid has spilled in my keyboard!

Tough tooties. Did you read the mounting instructions? Users who don't read the manual deserve what they get.

* Opening the chassis voids the Bloo warranty.

7

Benefits

- Better meditation
- Increased attention spans
- Hours of enjoyment

Specifications

Column-shaped chassis
5" tall x 2" wide x 1.5" deep
Proprietary "blooble" liquid mixture
